### **DETAILED ACTION**

The Amendments filed on April 28, 2008 has been received and entered.

Currently, Claims 1-3, 6-14, 17-20 are pending. Claims 1-3, 6-12, 17-20 are examined on the merits. Claims 4-5, 15-16 are canceled.

### ***Election/Restrictions***

Applicant's election of caffeic acid derivatives in the reply filed on Dec. 3, 2007 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Newly submitted claims 13-14 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Claims 13-14 were "use" claims that were examined as composition claims. Now they are amended to be method claims.

Group I, claim(s) 1-3, 6-12, 17-20, drawn to an active agent.

Group II, claim(s) 13-14, drawn to a method of using caffeic acid.

The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The common feature is caffeic acid. The composition of caffeic acid is involved in hepatic tumorigenesis (see Abstract, Chung et al., 2004, FASEB J. 18, 1670-1681). The product claims are not involved in muscular strength enhancing or body-fat regulating; therefore, the reference

shows that the claimed composition has a different use than the uses claimed in groups I-II. Thus, the reference shows a lack of unity.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 13-14 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

***Claim Rejections - 35 USC § 112***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 6, 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention for the reasons set forth in the previous Office Action, which is set forth below. All of Applicant's arguments regarding this ground of rejection have been fully considered but are not persuasive.

Claims 6, 17 are indefinite because it is not clear what is exactly encompassed by "derivative" of caffeic acid. Since applicant's definition of "derivative" is opened ended, what is encompassed by "derivative" cannot be definitely determined.

***Claim Rejections - 35 USC § 102***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-3, 6-12, 17-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Tanabe et al. (US 5994413) for the reasons set forth in the previous Office Action, which is set forth below. All of Applicant's arguments regarding this ground of rejection have been fully considered but are not persuasive.

Applicant argues that the muscular strength enhancing and body-fat regulating activities are not taught.

In response to applicant's argument that the muscular strength enhancing and body-fat regulating activities are not taught, a recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
